Any combination of education and relevant experience that would allow for the knowledge to perform the duties of a water distribution and collection system operator.

KNOWLEDGE AND SKILLS

- Knowledge of the methods, tools, materials, and equipment used in the construction, maintenance, repair and operation of sewer and water systems and associated facilities.
- Knowledge of SCADA / telemetry systems and controls
- Basic computer skills
- Carpentry Skills
- Ability to keep records and prepare reports.
- General mechanical ability
- Ability to read blueprints and construction drawings.
- Take water samples and perform required water laboratory tests.
- Skills to establish and maintain cooperative relationships with other employees.

LICENSE AND CERTIFICATES

The ability to obtain a California Grade I Water Distribution Certification and a Wastewater Collection System Grade I Certification within 6 months.

Possession of a valid California driver's license with a safe driving record.

BENEFITS AND SALARY

Excellent Benefits through CalPERS with a Salary range of \$35.32 to \$46.67 per hour depending on experience.
